

Classic Padel Court

Professional Standard Padel Court for Clubs, Communities & Commercial Projects

Build a Reliable, High-Performance Padel Facility

The **XTZ Classic Padel Court** is a professional-grade court system engineered for durability, safety, and long-term commercial performance. Combining a robust galvanized steel structure, premium tempered safety glass, and high-quality artificial turf, it offers an excellent balance of performance, affordability, and low maintenance.

Unlike panoramic courts that prioritize maximum visibility for professional broadcasting, the **Classic Padel Court** features additional structural columns around the glass enclosure, providing enhanced rigidity and exceptional wind resistance. This makes it one of the most popular choices for sports clubs, schools, municipalities, residential communities, and commercial padel centers worldwide.

Designed according to international padel court specifications, the Classic Court delivers the same professional playing experience while offering outstanding value for long-term investment. Regulation courts measure **20 × 10 meters (200 m²)** with a net height of **0.88 m at the center and 0.92 m at the posts**.

Why Choose the XTZ Classic Padel Court?

Professional Playing Performance

Engineered to provide consistent ball rebound, player comfort, and reliable court performance for daily recreational play, coaching sessions, club leagues, and tournaments.

Every component is manufactured to deliver years of dependable operation under intensive commercial use.

Stronger Structural Stability

The Classic Court incorporates additional steel support columns around the glass enclosure.

This traditional structural design offers:

- Greater frame rigidity
- Higher overall stability
- Excellent wind-load performance
- Reduced structural movement
- Long-term durability

It is particularly well suited for outdoor installations in regions with strong winds or varying weather conditions.

Premium Hot-Dip Galvanized Steel Structure

The entire steel framework is fabricated using premium hot-dip galvanized steel and protected with a high-performance outdoor powder coating.

Benefits include:

- Outstanding corrosion resistance
- Superior structural strength
- Excellent weather protection
- Long service life
- Minimal maintenance requirements

Suitable for coastal, humid, desert, tropical, and cold-climate environments.

High-Strength Tempered Safety Glass

The court features premium **12mm tempered safety glass**, providing:

- Excellent impact resistance
- Crystal-clear visibility
- Stable ball rebound
- Enhanced player safety
- Long-lasting durability

Each glass panel is precision-manufactured for consistent quality and reliable performance.

Professional Artificial Turf System

Our premium artificial grass surface is specifically designed for padel.

Features include:

- Consistent ball bounce
- Excellent traction
- Comfortable footwork
- UV resistance
- Efficient drainage
- High wear resistance
- Reduced maintenance costs

Perfect for high-frequency commercial operation.

Energy-Efficient LED Lighting

Optional professional LED lighting system provides:

- Uniform court illumination
- Low energy consumption
- Long operating life
- Reduced glare
- IP65 waterproof protection
- Night-time operation

Ideal for clubs extending business hours into the evening.

Technical Specifications

Item	Specification
Court Type	Classic Padel Court

OEM / ODM	Available
Warranty	Up to 10 Years on Steel Structure

Key Advantages

Outstanding Value for Investment

The Classic Court offers professional-level performance at a more economical investment compared with panoramic models, making it the preferred choice for large-scale commercial developments and multi-court installations.

Engineered for Heavy Commercial Use

Built to withstand continuous daily use by clubs, academies, fitness centers, schools, and public sports facilities.

Easy Installation

The modular structural system allows efficient transportation, simplified installation, and faster project completion.

Benefits include:

- Reduced installation time
 - Lower labor costs
 - Easier maintenance
 - Convenient replacement of individual components
-

Low Lifetime Maintenance

Premium galvanized steel, tempered glass, and durable artificial turf significantly reduce maintenance costs while extending the service life of the court.

Fully Customizable

XTZ offers complete customization services, including:

- Frame colors
- Turf colors
- Club logos
- Sponsor branding
- Entrance gate design
- Lighting configuration
- Windbreak screens
- Court numbering
- Scoreboards

- Player benches
 - Protective padding
 - Roof systems
-

Ideal Applications

Commercial Padel Clubs

The Classic Court is the preferred solution for clubs planning multiple courts while maintaining excellent construction quality and investment efficiency.

Perfect for:

- Club memberships
 - Court rentals
 - Coaching programs
 - Amateur tournaments
 - League competitions
-

Sports Academies

An ideal training environment for:

- Youth development
 - Professional coaching
 - High-performance athletes
 - School sports programs
 - Club training camps
-

Schools & Universities

Provide students with access to one of the world's fastest-growing racket sports.

Suitable for:

- Physical education
 - Campus recreation
 - Student competitions
 - Athletic development
-

Municipal Sports Facilities

Cities and local governments increasingly invest in padel courts to encourage active lifestyles and community engagement.

The Classic Court is designed for reliable long-term public use.

Residential Communities

Increase property value by adding a modern recreational amenity that encourages social interaction and healthy living.

Ideal for:

- Gated communities
 - Apartment complexes
 - Residential clubs
 - Lifestyle developments
-

Hotels & Resorts

Enhance guest experiences with a premium sports facility that attracts both recreational and competitive players.

Perfect for:

- Luxury resorts
 - Beach hotels
 - Vacation properties
 - Wellness destinations
-

Fitness & Wellness Centers

Expand your service offering with a fast-growing sport that attracts members of all ages and skill levels.

Corporate Campuses

Promote employee wellness through a modern sports facility designed for recreation, team building, and company events.

Military & Government Facilities

Durable enough for intensive institutional use while requiring minimal maintenance.

Private Residences

Create a professional-quality sports facility at home for family entertainment and private coaching.

Optional Accessories

Complete your project with:

- Professional LED Lighting
 - Curved Roof System
 - Full Canopy Roof
 - Artificial Turf Upgrades
 - Windbreak Mesh
 - Club Branding
 - Player Benches
 - Referee Chairs
 - Ball Collection System
 - Camera Mounts
 - Digital Scoreboards
 - Entrance Gates
 - Protective Padding
 - Drainage System
 - Maintenance Equipment
-

OEM & Private Label Manufacturing

XTZ supports distributors, contractors, sports developers, and global brands with complete OEM and ODM services.

Our solutions include:

- Private Label Production
- Custom Engineering
- CAD Layout Drawings
- 3D Project Renderings
- Structural Calculations
- Installation Manuals
- Remote Technical Support
- Worldwide Shipping
- Door-to-Door Logistics
- Turnkey Project Management

Why Partner with XTZ?

- Factory-Direct Manufacturer
- Professional Export Experience
- Strict Quality Control
- International Standard Manufacturing
- Competitive Factory Pricing
- Fast Production Lead Times
- Global Shipping Network
- Professional Engineering Support
- Responsive After-Sales Service
- Long-Term Structural Warranty
