

Covered Padel Court

All-Weather Professional Padel Court for Clubs, Sports Complexes & Commercial Investments

Play Anytime, In Any Weather

The **XTZ Covered Padel Court** is designed to deliver uninterrupted play throughout the year, regardless of weather conditions. By integrating a high-strength padel court with a durable roof structure, this solution protects players, spectators, and the playing surface from rain, excessive sunlight, snow, and other environmental factors.

Whether you're building a commercial padel club, a sports academy, a luxury resort, or a municipal sports facility, a covered court significantly increases court availability, extends operating hours, and maximizes your return on investment.

Manufactured with **hot-dip galvanized steel, 12mm tempered safety glass, professional-grade artificial turf**, and a customizable roofing system, the XTZ Covered Padel Court is engineered for long-lasting performance in demanding environments.

Why Choose the XTZ Covered Padel Court?

Year-Round Playability

Unlike open-air courts, a covered padel court allows players to enjoy the game in virtually all weather conditions.

Benefits include:

- Protection from rain
- Reduced glare from direct sunlight
- Lower surface temperatures during summer
- Shelter from snow and light hail
- Improved player comfort
- More predictable playing conditions

For clubs and operators, this means fewer weather-related cancellations and more consistent revenue.

Maximize Court Utilization & Revenue

A covered court helps sports facilities operate more efficiently by increasing court availability throughout the year.

Business advantages include:

- Higher booking rates
- Extended operating hours
- Greater customer satisfaction
- Increased coaching opportunities
- More tournaments and events
- Faster return on investment

This makes covered courts an excellent choice for commercial clubs looking to maximize profitability.

Heavy-Duty Galvanized Steel Structure

The court and roof framework are manufactured using premium **hot-dip galvanized steel**, providing:

- Exceptional structural strength
- Outstanding corrosion resistance
- Long service life
- Excellent weather protection
- Low maintenance costs

Each structure is engineered to withstand demanding outdoor conditions and can be adapted to local wind and snow load requirements.

Durable Roof System

Our roof structures are available in multiple configurations to suit different climates and architectural styles.

Roof options include:

- Curved Steel Roof
- Arched Roof
- Flat Roof
- Tensile Membrane Roof
- Polycarbonate Roof
- Sandwich Panel Roof
- Custom Architectural Roof

Each option is designed to provide reliable protection while maintaining excellent natural light and ventilation.

Premium Tempered Safety Glass

The enclosure features **12mm tempered safety glass**, delivering:

- Superior impact resistance

- Crystal-clear visibility
- Consistent ball rebound
- Long-term durability
- Enhanced player safety

The glass enclosure provides a premium playing experience while maintaining the open feel that padel players expect.

Professional Artificial Turf

The playing surface is fitted with high-performance artificial turf designed specifically for padel.

Features include:

- Consistent ball bounce
- Excellent grip
- Reduced player fatigue
- UV resistance
- Efficient drainage
- High wear resistance
- Comfortable movement

Designed for intensive commercial use with minimal maintenance.

Professional LED Lighting

Optional LED sports lighting ensures excellent visibility for evening matches and indoor-like playing conditions.

Features:

- Uniform illumination
 - Low energy consumption
 - Long service life
 - IP65 waterproof rating
 - Reduced glare
 - Tournament-ready lighting levels
-

Snow Load	Engineered to Local Requirements
Color Options	Black, White, Grey or Custom RAL Colors
OEM / ODM	Available
Warranty	Up to 10 Years on Steel Structure

Key Benefits

All-Weather Protection

A covered court protects players and facilities from:

- Rain
- UV radiation
- Strong sunlight
- Snow
- Wind-blown debris
- Falling leaves
- Dust accumulation

This helps maintain a cleaner playing environment and reduces maintenance requirements.

Increased Business Value

Covered courts are ideal for operators seeking to increase profitability.

Advantages include:

- More playable hours
 - Reduced weather disruptions
 - Greater customer retention
 - Higher membership value
 - Increased event hosting opportunities
 - Better long-term investment performance
-

Lower Operating Costs

Premium materials reduce ongoing maintenance by protecting the court surface and structural components from prolonged exposure to the elements.

Faster Installation

The modular construction system allows for efficient transportation and streamlined on-site assembly, reducing installation time and labor costs.

Fully Customizable Design

XTZ offers complete customization, including:

- Roof style
- Roof height
- Structural color
- Turf color
- Club branding
- LED lighting layout
- Logo integration
- Drainage solutions
- Entrance design
- Windbreak systems

Every project is tailored to your site conditions and operational needs.

Ideal Applications

Commercial Padel Clubs

Covered courts enable clubs to operate year-round, increasing booking capacity and providing a premium experience for members.

Perfect for:

- Membership clubs
 - Court rental businesses
 - Coaching academies
 - Professional tournaments
 - Corporate events
-

Sports Academies

Create a reliable training environment where athletes can practice regardless of weather conditions.

Suitable for:

- Professional coaching
 - Youth development
 - High-performance training
 - School competitions
-

Municipal Sports Centers

Local governments can provide modern recreational facilities that remain accessible throughout the year.

Covered courts encourage greater community participation and maximize public investment.

Hotels & Luxury Resorts

Enhance guest experiences with an all-weather sports facility that adds value to premium hospitality properties.

Ideal for:

- Luxury resorts
 - Beach hotels
 - Wellness retreats
 - Vacation communities
-

Residential Communities

Provide residents with a premium recreational amenity that remains comfortable in all seasons while increasing property appeal.

Universities & Schools

Offer uninterrupted physical education and extracurricular sports programs throughout the academic year.

Fitness & Wellness Centers

Expand services with one of the fastest-growing racket sports while ensuring consistent operation regardless of weather.

Corporate Campuses

Support employee wellness with a premium sports facility suitable for recreation, leagues, and team-building activities.

Sports Parks & Multi-Sport Complexes

Covered padel courts integrate seamlessly into larger sports developments, increasing facility utilization and attracting visitors year-round.

Private Estates & Villas

Bring professional-quality padel to your home with a fully customized all-weather court designed for family recreation and private coaching.

Optional Upgrades & Accessories

Customize your covered court with:

- Panoramic Court Design
- Curved Roof System
- Tensile Membrane Roof
- Polycarbonate Roof Panels
- Professional LED Lighting
- Digital Scoreboards
- Windbreak Screens
- Player Benches
- Referee Chairs
- Ball Collection Systems
- Camera Mounts
- Live Streaming Equipment
- Club Branding

- Premium Turf Colors
 - Smart Access Control
 - Court Booking Integration
-

OEM & Turnkey Manufacturing Solutions

XTZ provides comprehensive OEM and ODM services for distributors, contractors, developers, and global sports brands.

Our services include:

- Private Label Manufacturing
 - Custom Court Design
 - Structural Engineering
 - CAD Drawings
 - 3D Project Visualization
 - Installation Manuals
 - Remote Technical Support
 - Worldwide Shipping
 - Door-to-Door Delivery
 - Complete Turnkey Project Management
-

Why Choose XTZ?

- Factory-Direct Manufacturer
 - International Export Expertise
 - Premium Quality Materials
 - Strict Quality Control
 - Competitive Factory Pricing
 - Professional Engineering Team
 - Flexible Customization Options
 - Reliable Global Logistics
 - Responsive After-Sales Support
 - Long-Term Structural Warranty
-

Invest in a Court That Performs in Every Season

The **XTZ Covered Padel Court** is the ideal solution for operators who want to maximize court availability, improve player comfort, and generate consistent revenue throughout the year.

Whether you're developing a single premium court or a large multi-court sports complex, our experienced team will provide a fully customized turnkey solution—from design and engineering to manufacturing, shipping, and installation support.
